

International Journal of Machine Learning

CONTENTS

Volume 13, Number 2, April 2023

- An Efficient Priority Queue Data Structure for Big Data Applications.....55
James Rhodes and Elise de Doncker*
- A Cell Tracking Method for Dynamic Analysis of Immune Cells Based on Deep Learning.....64
*Aya Watanabe, Kenji Fujimoto, Hironori Shigeta, Shigeto Seno, Yutaka Uchida, Masaru Ishii, and Hideo Matsuda**
- Big Data Applications in Supply Chain Management: SCOPUS Based Review70
Baha M. Mohsen
- UNMMIT: A Unified Framework on Unsupervised Multimodal Multi-domain Image-to-Image Translation.....77
Lei Luo, Shangxian Wang, and William H. Hsu*
- Offensive Language Detection in Social Media Using Transformers and Importance of Pre-training82
Beyzanur Saraclar, Birol Kuyumcu, Selman Delil, and Cuneyt Aksakalli*
- A Decision-Making Model Based on Spiking Neural Network (SNN) for Remote Patient Monitoring.....88
Sebastien Cohen, Florence Leve, Harold Trannois, Wafa Badreddine, and Florian Legendre*
