

International Journal of Machine Learning

CONTENTS

Volume 13, Number 4, October 2023

An Advanced Convolutional Neural Network for Detecting Chest X-ray Abnormalities.....	136
<i>Fady Tawfik and Yi Gu*</i>	
Deep Learning and Machine Learning Models to Predict Energy Consumption in Steel Industry	142
<i>Kittisak Kerdprasop*, Nittaya Kerdprasop, and Paradee Chuaybamroong</i>	
Sustainable Smart University: A Short-Term Deep Learning Framework for Energy Consumption Forecast	146
<i>Berny Carrera and Kwanho Kim*</i>	
Establishment of Risk Prediction Model for Soil and Groundwater Pollution of Gas Station with Machine Learning Techniques	153
<i>I-Cheng Chang, Shen-De Chen, and Tai-Yi Yu*</i>	
Parameter-Free Conglomerate nearest Neighbor Classifier Using Mass-Ratio-Variance Outlier Factors	158
<i>Patcharasiri Fuangfoo and Krung Sinapiromsaran*</i>	
Automated Segmentation of Cervical Cell Images Using IMBMDCR-Net.....	163
<i>Yanjing Ding, Weiwei Yue, and Qinghua Li*</i>	
Detection of DDoS Attacks Using SHAP-Based Feature Reduction	173
<i>C Cynthia*, Debayani Ghosh, and Gopal Krishna Kamath</i>	
Data Balancing and Aggregation Strategy to Predict Yield in Hard Disk Drive Manufacturing	181
<i>Nittaya Kerdprasop*, Anusara Hirunyanakul, Paradee Chuaybamroong, and Kittisak Kerdprasop</i>
